## SUMMARY

Software Computer Engineer on a BS.c program at the University of Buea. I have no job experience but have belt skills on certain languages like Python, Java and so on toward AI and Machine Learning.

## EXPERIENCE

**Project Manager:**

Actually I have done lots of small projects. I was the project manager in a little group project which was given my one of my teachers.

**Online Resources:**

My profile is built on my platforms like Indeed, Github, Codewars, Linkin, Tutor and so on. Mostly for research and personal growth.

**Social Cooperation:**

Even though I have no work experience, I have enable people around in installations of software, systems and hardware maintenance.
